U.S. COAST GUARD AWARDS \$10+ MILLION SUPPORT SERVICES CONTRACT AT ACADEMY

THE CENTECH GROUP selected to provide newest technical solutions supporting the Coast Guard's educational branch and cadets.

WASHINGTON April 16, 2008 – A five year contract worth more than \$10 million to provide the U.S. Coast Guard (USCG) New London, Connecticut Academy faculty and cadets with enhanced information technology support and solutions has been awarded to THE CENTECH GROUP, Inc. of Arlington, Virginia and subcontractor, Harris IT.

The contract, awarded by Headquarters USCG for the Academy Information Services Division, calls for the delivery of centralized help desk and technical support, network administration, cadet support, system administration, software and hardware management, training and instructional support, computer-aided drafting and geographic information system support, database administration, Web site and Web application administration, and SCANTS (USCG ship simulator) support. CENTECH will also provide software development and enhancement services for the Academy's internal information requirements.

"We are honored to support the mission needs for educating and training commissioned officers for the United States Coast Guard", said CENTECH President, Fernando V. Galaviz. "Crucial technology support and state-of-the-art solutions will be provided through our innovative service delivery techniques, unique program
